

INVITATION

INTELLECTUAL PROPERTY FOR STARTUPS

Intellectual property protection is an important consideration for most startups. Obtaining intellectual property protection, such as patents, can minimize competition and act as a defensive mechanism against infringement claims from others.

What can you exactly protect? How can you do it? And who can help you? Those are the questions which our speakers will address during this conference.

Tuesday, May 30th 2017

at 6:30 pm

Venue: Casino Luxembourg - InfoLab

41 rue Notre-Dame L-2240 Luxembourg

Parking Knuedler / Monterey

The conference will be followed by a networking cocktail
