

## INVITATION

### "A 3D Printing Cluster for Luxembourg?"

On: Wednesday, September 24th, 2014 – 18.00 hours onwards

Venue: PwC, 400 Route d'Esch, 1471 Luxembourg

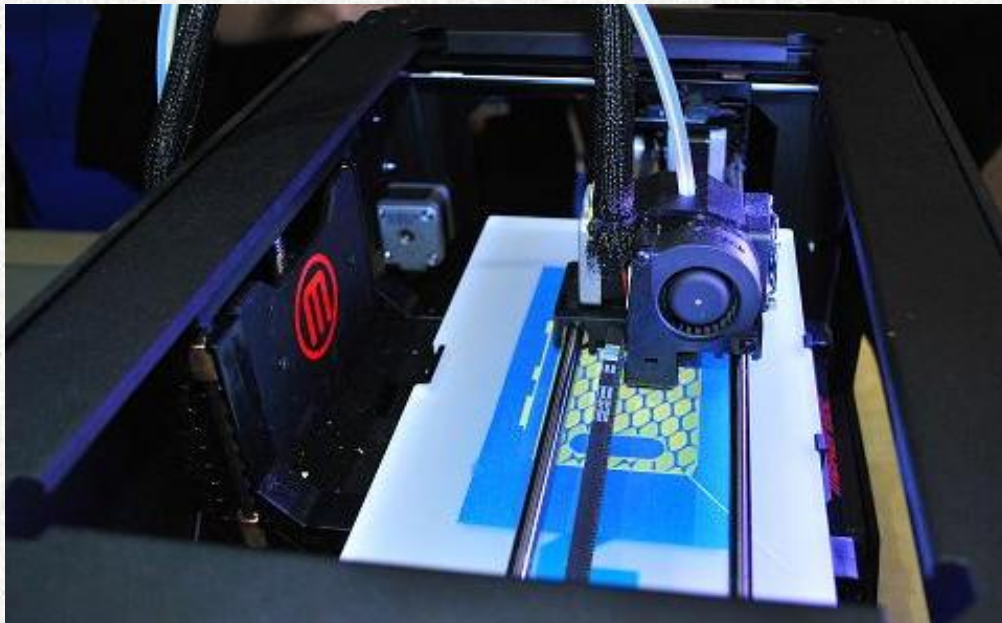

Live Demo: see how a 3D printer looks like and how it works.

Conference followed by networking cocktail

**Context:** "The size of the global 3-D printing market, including 3-D printer sales, materials and associated services, is predicted to reach \$16.2 billion by 2018, according to independent research company Canalis. Its estimates show the sector stood at \$2.5 billion globally in 2013 and will rise to \$3.8 billion in 2014. And in five years the company believes the market will grow by over 500 percent with a year-over-year growth rate of 45.7 percent." (Matt Clinch, CNBC)

Can and should Luxembourg be part of the game?

Our speakers will consider this opportunity and discuss the added value of a 3D printing cluster for Luxembourg.
